The snow storm this week is said
to have been the severest that ever
was known to the oldest inhabitant.
Considerable speculation as to losses
of live stock has been afloat but nothing
authentic has been received.

Several prominent sheepmen of this
county were in our city during the
storm and they entertained grave fears
towards the safety of their flocks. We
would be glad if our friends will re-
port to us the exact losses in different
localities for next week's issue.

ment of general merchandise, which
